

ViewModel

```
classDiagram
    class ViewModel
    class HomeViewModel["com.snail.wallet.MainScreen.ui.home.HomeViewModel"]
    HomeViewModel --|> ViewModel
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box labeled 'ViewModel'. Below it is a larger, gray rectangular box containing the text 'com.snail.wallet.MainScreen.ui.home.HomeViewModel'. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that 'HomeViewModel' inherits from 'ViewModel'.

com.snail.wallet.MainScreen.ui.home.
HomeViewModel
